This week has been art week!
Look at some of the wonderful learning from across school.

Nursery also had their Easter Bonnet parade!

Timetable Rockstars

This week's winners are:

5 Phoenix (10 Dojos each!)

This Week's Attendance:

1st: 88% Cash (5 Dojos each)
2nd: 87% Coffantre (3 Dojos each)
3rd: 86 Baginton (1 Dojo each)

Dinner Time Discussions

How can we protect our planet?
(It is Earth Day on the 22nd April and this is linked to your holiday home learning!)

Housepoints

North house win for the term!

Holiday Homework - 11th April

World Earth Day 2025

During half term it is World Earth Day. We want you to use this time to explore the world around you and how we can look after it as best we can.

Below is a list of activities. Please have a look and explore which ones you would like to do. We would love to see your work on our first week back or you can post any photos of what you have been up to on class dojo. We're exciting to see what you've done. Enjoy and stay safe!

<p>Create an eco-superhero.</p> 	<p>Write a poem about our Earth or how we can save it.</p>	<p>Make a recycling poster for your classroom.</p> 
<p>Go for a walk and record all of the different wildlife you can see.</p>	<p>Design a garden plot for home or school. What could you grow? What could you do for the wildlife?</p>	<p>Create a piece of artwork expressing how you see our world.</p>
<p>Draw around your hand. On each finger write a pledge on how you can look after our planet.</p>	<p>Plan a meal using locally sourced ingredients.</p> 	<p>Look at where your clothes are from. Locate these places on a map.</p>
<p>Collect natural materials and build animals out of them.</p>	<p>Read a book about the Earth. This could be fiction or non-fiction.</p> 	<p>Write a story about the Earth. Be as creative as you can!</p>

Would you like to have a piece of work displayed in an Art Gallery?

At Gosford Park, we have been given a great opportunity to have artwork displayed at Coventry's Herbert Art Gallery.

From the 24th June until the 17th August 2025, the Herbert Art Gallery are displaying work created by children around the theme of **Community**. This could be people or places.

The artwork should be no larger than A3 and be flat, so sketching or painting. On the back, clearly written, should display the child's full name, age and school

This should be returned to school, no later than Friday 16th May.

A Message for Year 6 Families

This half term the children have started to use Learning by Questions. This is an online tool that supports teaching them to their gaps in understanding across reading, maths and grammar and punctuation. It is as effective as a personal AI tutor!

The children enjoy using it in school and over the holidays we will be asking that they spend as much time as possible on their independent study.

After half term, we have made a weekly plan for all children in Year 6:

Week 1- Monday 28th April– Friday 2nd May: Year 6 children invited in to school from 8am to a booster session every morning on learning by questions. They should come through the front office.

Week 2- (Monday 5th May– School closed) Tuesday 6th– Friday 9th May: Year 6 children invited in to school from 8am to a booster session every morning on learning by questions. They should come through the front office.

On Tuesday 6th, if your child is signed up to go on the residential, then there is a parent/ carer meeting about this.

Week 3– SATS week– Monday 12th May– Thursday 15th May: Year 6 children invited in to school from 8am to have a SATs breakfast. All children must be in school on these dates.

Friday 16th May: As long as all children are in school for Week 3 then this will mark the end of SATS week. A non uniform day for Year 6 children only will be confirmed on Thursday 15th by 3:15pm.

Week 4– School returns to normal time. 8:30am classroom doors. We will still be doing our writing lessons and we will be blocking full afternoons of our foundation subjects.

A PARENT'S GUIDE TO LEARNING BY QUESTIONS

Good news! Your school has invested in the award-winning Learning by Questions (LbQ).

But what is LbQ, and how can it help your children?

What is LbQ?
Learning by Questions is a teaching and learning tool filled with Question Sets for maths, English and science. Pupils answer questions on a device, whether that be at home or in the classroom, and the teacher can see how they are doing in real time.

"What I like is that when you get a question wrong a couple of times and you are struggling on it, your teacher knows straight away and they can come and help you."
Caitlin, aged 10

How does it help your child?
Immediate and constructive feedback
Every time your child answers a question they are given immediate and constructive feedback, which means you don't have to remember those tricky percentages and decimals!

No learner left behind
As children progress through activities, LbQ tailors questions at a pace suited to them. No one gets left behind and everyone works at the speed and challenge that's right for them.

"I found it really good because I can learn at my own speed and I don't have to wait for others and others don't have to wait for me, so I feel OK going at my own pace."
Jack, aged 12

How does LbQ help your teacher?
Teachers can see who needs help and why, and focus their efforts on the areas that need the most attention. Our automatic marking feature frees up bags of teaching and planning time so they can continue to do what they do best: teach your children!

Impact!
LbQ has been proven to improve exam results and boost pupil confidence. Just take a look at our impact on **Masefield Primary School in Bolton** to see the effect that we can have on pupils and teachers.

LbQ Remote Learning
Using LbQ remotely couldn't be easier. Our digital resources mean that there is no printing out worksheets or marking work yourself.

LbQ eases the burden of remote learning
Helpful feedback is delivered automatically and the teacher can see who needs extra attention.

LbQ: Making the most out of every lesson!

How does my child login to a school LbQ lesson?

There are two ways, use a web browser to login at lbg.org/task or you can download and install the free LbQ Tasks App from:

Apple iPad | Google Android | Microsoft Windows

Alternatively you can search for 'LbQ Tasks' in your iPad App Store or Android tablet Play Store. There is no advertising or in-app purchasing within the LbQ app.

How to connect from home

Your child's school uses Learning by Questions (LbQ), which is a great way to learn by answering questions and then instantly receiving helpful feedback after every answer to guide learning and build confidence.

If your child has received a 4-character session code from their school, they will need to use an internet connected device to log in to the activity on the same day. The code will no longer work on the following day and the school will provide new codes for each day.

 →  → 

The teacher can set up to three Question Sets at any time and can see immediately when answers are entered.

How to switch from one Question Set to another when connected?

Click on the exit door icon on the top corner of the screen, this will take you to a list of one or more tasks that have been set up by the teacher.

Logging out

If you log out, you can log back in again during the session. Please input exactly the same name each time. Please exit the lesson session after you have finished each day by clicking on the exit door symbol.
