

- We all feel in our comfort zone if our child is achieving a high percentage in tests and examinations. 80% in a test is generally excellent news! The danger is that we may feel the same way about attendance until it is explained.
- If a child has an attendance percentage of 80% then this is equivalent to missing a whole day every single week
- If a child has an attendance percentage of 80% from Year 7 to Year 11 then this is equivalent to missing an entire year of school.

One year in school is equivalent to **950** 1 hour long lessons
Five years in school is equivalent to **4750** 1 hour long lessons
Eleven years in school is equivalent to **10450** 1 hour long lessons
And all of this comes down to set of grades on a sheet of paper in an envelope

¹ 97% and above – pupils with attendance at this level throughout their school career, will make the most progress and this should lead to better prospects for work, college and university.

² 95% - pupils with attendance at this level should reach their target grades and should have good prospects and opportunities for work, college and university but they are just below the national average rate of attendance

³ 90% - pupils with attendance at this level are missing a month of school per year and are likely not to reach their target grades. Progress will be negatively affected and their attendance will be viewed negatively by employers, further and higher education.

⁴ 85% - pupils with this attendance will find it very difficult to keep up and their chances of achieving their potential will be significantly damaged

⁵ Any attendance percentage below this will make it impossible for pupils to keep up with the work. An EPN (Education Penalty Notice) will be issued.
